

HVDC modeling in Power Factory

15-16 December 2011

Risø DTU

Frederiksborgvej 399

4000 Roskilde

Objective

Facilitate the exchange of experiences and knowledge regarding point-to-point (P2P) and multi-terminal (MT) HVDC modelling in Power Factory. The workshop will bring together researchers with experience in HVDC modeling and/or use of Power Factory dynamic simulation environment.

Participants

- Torsten Lund, Energinet.dk
- Florin Iov, Vestas
- Andrzej Holdyk, DTU Elektro
- Til Kristian Vrana, NTNU
- Temesgen Haileselassie, NTNU
- Georgios Stamatiou, Chalmers University
- Ioannis Margaritis, Risø DTU
- Anca Hansen, Risø DTU
- Lorenzo Zeni, Vestas/Risø DTU
- Veronica Mier, University of Oviedo
- Jose Coto Aladro, University of Oviedo
- Dumitru-Mihai Valcan, Vestas
- Irene Munoz Benavente, University of Cartagena
